#### 3.1 Specific portion mentioning 48 hours inspection report

The Department of Industries and Commerce has directed all the departments to change the existing inspection system as per the recommendations of State Business Reform Action Plan, 2016. In the reform action plan, it is recommended to exempt low risk factories from inspection by allowing self certification by the factory managements or allowing third party for inspection / certification of factory instead of department inspections, it is also recommended to issue on-line of inspection reports within 48 hours, allowing the industry to download the submitted inspection reports and submit the compliance report online, allocation of inspectors and random selection of factories for inspections.
