

## **Business Reform Action Plan 2016 Response by Government of Maharashtra**

### **Area 1: Access to Information and Transparency Enablers**

**3:** Design and implement an online system where an investor can key in specific details (such as type of industry, number of employees, location etc.) and obtain information regarding all State approvals applicable to establishing her/his business/industrial unit

---

**Response:** **Yes**

**Remarks:**

In order to facilitate the ease of doing business, the Maharashtra government has developed a Single Window Portal for Doing Business in Maharashtra called the MAITRI Single Window Portal, which provides a one stop solution for the investors interested in setting up industries in the state.

MAITRI, which stands for 'Maharashtra Industry, Trade & Investment Cell', offers an online single window system which also provides the applicant, a comprehensive list of approvals which are required for him or her to establish a firm. The exhaustive list of services is periodically updated to ensure all the services are up-to-date.

**Supporting Documents:**

MAITRI website has a tab called 'List of Approvals' which has all the relevant filters incorporated, where the user is expected to mention his requirements, and based on which the list of required approvals change.

The user can get the information about all the required proofs applicable for to establishing her/his business/industrial unit.

**Description of the filters and functionality**

- Location of the land is a mandatory selection for all the filter combinations and the list of required approvals would change based on the selection.
- The stage of the proof is mentioned as 'Pre-Establishment' to convey that those proofs are required in the Pre Establishment Stage, when the business is being set up.

© This is the official website of Maharashtra Industry, Trade and Investment Facilitation Cell, Maharashtra, India. All Rights Reserved.

Selection of Location = Non-MIDC, provides the list of all relevant approvals which are pertaining to the selection. There are 56 such approvals as of now.

## 2. Location (MIDC or Non-MIDC) with Line of Manufacturing

The location selection along with the Line of Manufacturing, provides user with a list of approvals with the proper category of the industry, considering the pollution caused by the industry. This category affects the timelines of two approvals namely, Consent to Operate and Consent to Establish.

If Location is selected as MIDC and Line of Manufacturing is selected from the list of industries stated under MPCB, a comprehensive list of all the necessary approvals for establishing a cement are provided along with the Category of Industry, which is mentioned across Consent to Establish and Consent to Operate approvals. The timeline for these two approvals depends on the category of industry (RED, ORANGE or GREEN)

# Business Reform Action Plan 2016 Response by Government of Maharashtra

For example, for MIDC location and Line of Manufacturing as Cement, the output appears as a list of 50 relevant approvals, and the category of industry (RED for Cement) being updated across Consent to Establish and Consent to Operate.

## 5. Location (MIDC or Non-MIDC) with Requirement

The location selection along with the Requirement selection from Boilers, Water, Electricity, Land Conversion enlists the necessary approvals only for that particular requirement. For example, for Boilers, the Registration and Renewal of Boilers under the Boiler Act are the two approvals necessary (based on the requirement of the boilers).
