

As per Supply Code Regulation, the application will be registered only with the receipt for payment of necessary charges alongwith all necessary documents. These charges are estimated by KSEB Ltd. and demand note to be issued according to the time lines stipulated in Regulation 81 of the Supply Code. As the charges are site specific, the overall timeline for effecting the electricity connection also depends on preparation of estimate& issuing demand note. The time lines for release of connection after submitting application are stipulated in Regin.85. As per regulations, the charges to be collected for registering application being site specific, the remarks on the same may be obtained from KSERC, in light of remarks provided under item 186 above.
